

FOOD SAFETY AND QUALITY POLICY

As responsible for Amazonia Bio, we testify that we are committed to continually enhancing the reputation of our company and the products we trade and distribute, maintaining customer confidence in our products and services through the development and implementation of food safety and quality systems, standards and practices.

The following principles are the foundation of Amazonia Bio's commitment to quality and food safety:

- Research and develop, import, trade and export/distribute products that meet the highest quality and food safety standards, specifications and requirements, assuring product integrity, authenticity and legality.
- Meet applicable statutory and regulatory requirements for quality and food safety, including mutually agreed customer requirements related to quality and food safety.
- Develop and maintain a strong food safety culture through the communication about food safety policies, procedures and responsibilities, training, employee feedback on food safety related issues and performance measurement.
- Ensure the continual improvement of the performance and effectiveness of our processes and overall results of the food safety and quality management system, with focus on enhancing customer satisfaction.
- Conduct our business in a sustainable manner, acting in an ethical, transparent and responsible way with our suppliers, service providers, farmers, partners, customers, staff and other stakeholders, and preventing or reducing our environmental impact.

Regards,

Felipe Franzina
CEO
